Carmignac Portfolio Global Bond is an international fixed income fund that applies interest rate, credit and currency strategies depending on the global macroeconomic cycle. Its dynamic and flexible approach enables the Fund to apply a conviction-driven and non-benchmarked allocation strategy and thus fully exploit the many performance drivers available in the fixed income universe. The Fund aims to outperform its reference indicator⁽¹⁾ over a recommended minimum investment horizon of three years.

Non-benchmarked: Portfolio construction is a result of Fund manager views and market analysis with no bias to any benchmark.

Top-down investing: An investment strategy which finds the best sectors or industries to invest in, based on analysis of the corporate sector as a whole and general economic trends (as opposed to bottom up investing).
